

Recommendations from Boundary Committee

1. Make a large cut - create a boundary that will fit Board directive and guidance as well as other committee recommendations and move highest number of students.
2. Minimize double moves -- committee reviewed future proposals from PASA as determining factors knowing things can change.
3. Transportation ride times are important - transportation consulted on all decisions and also part of the committee process.
4. Special considerations for the students who are moving to new schools - there is a need for a formal transition plan for these students and parents
5. Communication is very important - present information on the website and through other communication avenues as we move toward a possible boundary adjustment.
6. Don't have a general grandfather provision - do not grandfather large groups of students as part of the recommendation as this does not address the problem presented by projections of both FISD and PASA for coming years. However, do allow the current 4th grade Windsong students who would be rezoned to Bales for 5th grade the option to remain at Windsong for the 2018-19 school year. This would allow the students to have one fewer school transition as well as lower the Bales enrollment for one school year. Parents would need to provide their own transportation and it would not grandfather younger siblings. Letters will be sent to this group of students explaining this provision (approximately 44 students). Board Policy FDB LOCAL on intradistrict transfers will still be in place - yearly approval for employees and for requested transfers across boundaries.
7. Make boundary adjustments according to Option 1C.

Neighborhoods that would be adjusted in Option 1C
Moving from Cline/Windsong to Westwood/Bales

Almas Peridas
Buckingham Estates
Chappel Hill
Castle Park
Clear Creek Woods
Eagles Point
Field Creek Forest
Frenchmans Creek
Friendswood Forest
